

Dear Janice

Sorry for late but I was a way for this period of from my computer. Dear Janice it is an honour to be one of yours students in English class. It was more than an ordinary English class. Actually, for me it was a life lessons which have a great impact in my thinking and the way to see the life. When I saw you for the first time with *Viviane* I knew I will be in your class. I like your way of teaching, your way of thinking and analyzing the issues. You're quite calm which made me hesitate at the beginning but with time I started to be more self confident which help me to overcome my fear as well as weakness in speaking. During this period I learned a lot of things which I believe it will help me in my studying as well as in my personal life. Actually, the reality in yours talking make my more concern with almost all subjects that we have had discussed. In the past I was not reading newspapers, whoever now a day I am reading because I like to be involved in the community issues as a member of it. In addition, because of you I learned a great "things" information a bout business and fineness even if you think this information were simple and basic. Moreover, IELTS exams were so helpful and refresher to improve my English language skills. Furthermore, your knowledge and good experience about other nations and their culture, for example middle east, help you to communicate well with your students" us". By the way I read the essay and I like it so much and I am looking foreword to read yours book soon. Thank you dear Janice so much and I wish for you and your family also the other students {Oleg, Dong, Maria, Ben, Choy and Laurence} a happy great life.

Yours sincerely
Abdullah
