

Dear Peter and Janette,

We are home now, but our hearts still seemed to have stayed in Australia. When we looked at the photos we took there, we missed a good time we had with you and good days we had in Brisbane and Gold Coast. It was raining and kind of cold when we arrived in Taiwan last night. We were told a typhoon was supposed to come to Taiwan and luckily it changed its course at last. We seldom had a typhoon in winter so we were kind of surprised on hearing this news. Global warming?!

Lisa and I got a very good impression of Australia and one of the reasons is YOU are our host family. On this tour we realized some Australia culture and politics and made good friends with you and others from all over the world. Also, we would like to thank you for talking with us patiently and considerately. That's quite an experience even the trip was just for 11 days!!

We'll back to work soon. That means we will be like a hamster running on a treadmill again. People said a working cycle is "hired, tired, and fired/retired." I'd rather say "work smart, live smart." And then we go on to "eat, drink and be merry for tomorrow we die."

Attachments are photos taken on the BBQ day. We will keep all the photos as our unforgettable memories.

We hope we could be back to see you again or you could come to Taiwan some day. In addition, we would send an email about what's news and share our stories with each other from time to time.

Well, time to go and keep in touch!!

Best Regards,

Eric and Lisa
