**Why did you choose AICOL for your study?**

There was absolutely good! I had chosen a really good choice of being here.

**What do you like about AICOL and studying here?**

AICOL is the place where people from many countries come to study. It is a new way of meeting new friends. There are a lot of teachers who can make you perfect in months, not in years.

**Any general comments about your study, AICOL, and the Gold Coast.**

Gold Coast is the same weather in Thailand, that is why I would rather to study in Gold Coast and there are a lot of entertaining which are really great!

By the way, there is nobody could speak English fluently since they were born. Except they are English speaking people.
