

My name is Solene Carre I am French, I live in New Caledonia and I came to AICOL to learn English. It is my mother who chose this school because she wanted I learn English but she wanted I have holidays too, and in this school, activities are organised after lessons. I was okay to come too. For my part, it was great activities and lessons were really interesting and different than usually in New Caledonia. During this 3 weeks in AICOL, I met lots of different people who live, sometimes, far away in the world. It was funny to speak in English with people who speak another language than French. In my class there were Chinese, Russian, Swiss, French, Japanese and Arabian people. I think it is really nice. I spoke a lot with the Russian man and Swiss girl. The teacher, Janice, was funny, nice and not boring. I hope will have teachers like her in my country during the rest of my time at school. I loved discussions in the class, philosophy topics and games to speak about us. I wanted to stay again one week because this class was really and very good. I keep contact with some of them. In globally at school, I was happy to find a kitchen for students, clean toilets (sometimes in other places toilets are disgusting but not in AICOL), nice secretary, computers and a great organisation. A bad thing was that some students in other class wasn't always polite with me but I don't mind. I was in a nice home stay, very funny, very great, very lovely, very all!!! I was really happy to meet Debbie YARRINGTON and I hope to see her again later in my life. I was satisfied about this 3 weeks in Australia. I made good friends and not just French people. In globally AICOL is a great school and I hope come back in the future.

Solene CARRE.
