

AICOL

It is the third time I am studying at AICOL.

I like this school, there different programs.

My father told me I could change my school but I didn't want to.

At AICOL, you are free, you can express yourself, you can go on outings with them, you can learn English. Teachers are understandable, patient and sometimes funny.

Their work is very good and now I can express myself better than two years ago.

There is an administration too, it is very useful if you need help. With them you can organize outings in Paris (Dreamworld, Movieworld, Wet 'n Wild ...) and excursions too. Headteachers are very friendly with students, they are kind and understanding.

I have a lovely homestay family, they are so beautiful with me. They are very funny and kind.

They are like my second family. It is the third time I am going at their home.

I recommended AICOL to my friends last time and we enjoyed our stay together.

Again, I recommend AICOL to people who like learning English.

Thanks AICOL for everything.
