

In my opinion ...

JUDIE KREMKO-WALLACE

1/2/10

you are a good teacher, because ...

... you know discussion time is better than paperwork.

The most students wish to make progress in speaking.

... you notice what each student need the most.

... you have the know-how to explain and describe words and sentences in a easy way.

... you repeat questions and words untill the most students understand them.

... you choose subjects which are interesting for evry body.

... you encourage the students to speak.

... you have a sense of humour and a beautiful laugh !
